North Las Vegas, NV 89036-0307

January 21, 2000

Dear Ms. Dixon,

1... We are against the use of Yucca Mountain as the only national site for the disposal of spent nuclear fuel and high-level radioactive waste.

2 Storing all the country's hazardous waste in one location is unsafe. We would set
3 ourselves up for a potential terrorist attack. Also, we are concerned about the ability to safely transport hazardous waste from 77 locations around the country.

1 cont. We are not against storing our fair share of waste in Nevada and transporting our fair share of waste to Yucca Mountain, if it is proved safe. However, we are against using Nevada as the "sole" repository for the entire country's hazardous waste.

Carole Morse
